**Book and album launch tour**

Author and musician Tom Kitching launches his new book and album, 'Where There's Brass', with a special storytelling and music concert tour. Documenting six months living in the London waterways community, making the long journey across England from Manchester on a traditional narrowboat built in 1937, 'Where There's Brass' tells the story of the contemporary Londonwaterways; a floating slum at worst, a bohemian, alternative, vibrant community at best.
